

UCx - The All-In-One Business Solution

Tadiran is pleased to announce the general release of the UCx into its product family. The UCx (Unified Communications Solution) is the latest in a line of dependable business VoIP platforms designed to deliver high-value and cost effective communications with a complete feature set for a broad range of businesses. The UCx merges Tadiran's legendary wealth of sophisticated capabilities with the latest state-of-the-art technologies.

The UCx is a powerful, all-in-one communication solution, integrating a feature-rich phone system, advanced IP phones and powerful software features that can substantially improve your company's productivity while reducing your operating costs. Able to support up to 120 users, the UCx comes equipped with popular IP telephone connectivity and resides in a compact, rack-mountable unit.

Whether you are a single site or linking together multiple offices and remote users, the UCx provides the simplicity and speed of installation your organization needs. We make moving to new technology easy and predictable by providing a large set of familiar telephone capabilities that work with traditional telephone services and VoIP connections. These benefits allow you to control the pace of your transition.
