 Tadiran Telecom

# CORALVIEW DESIGNER

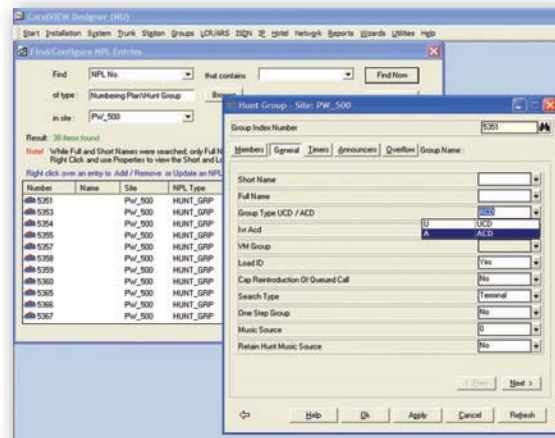

## CORALVIEW DESIGNER

Organizations rely on their communication systems to reliably connect employees and customers. Keeping those systems performing to their capacity requires intuitive administration tools. The CoralView Designer provides an easy-to-use Graphical User Interface for configuring and managing all aspects of the Coral IPx communication servers.

### KEY BENEFITS FOR YOUR ADMINISTRATIVE STAFF

- Logical graphical interface minimizes training
- Improves work-flow and saves time when making both routine and infrequent operations
- On-line help provides instant answers thus eliminating frustration
- Provide quicker response to user needs for both local and remote sites
- Allows more efficient team-work with multiple administrators
- Records changes and who made them, for review
- Improves enterprise efficiency by connecting to all systems simultaneously

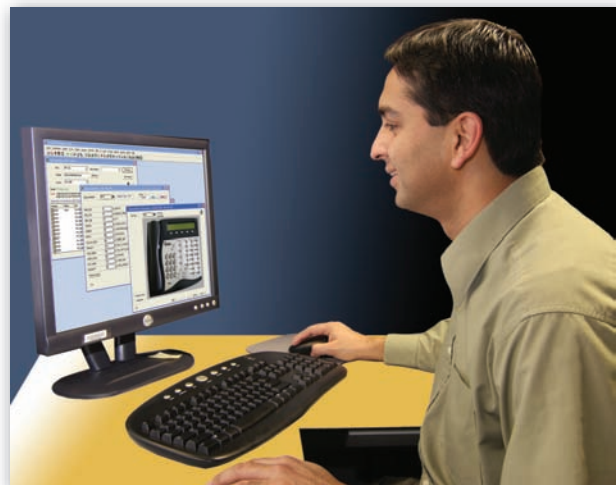

### INTUITIVE GUI INTERFACE

Take advantage of the powerful features of the Coral IPx (ACD shown) using graphical setup screens.

### EASY USER/DEVICE MANAGEMENT

Managing users and their devices is simplified using linked screens within CoralView Designer.

A technician or administrator can perform simple or complex tasks through a logically structured interface. A Microsoft Windows presentation provides standard program structure and the option to access through Terminal Services. CoralView Designer seamlessly provides search and administration tools over a network of Coral IPx systems. Wizards perform background tasks such as finding available dial numbers. Reports collate information from various tables including user-stations, groups and trunks. CVD supports both GUI and text-based programming, allowing experienced personnel to choose their preferred interface.

# CENTRALIZED ADMINISTRATION

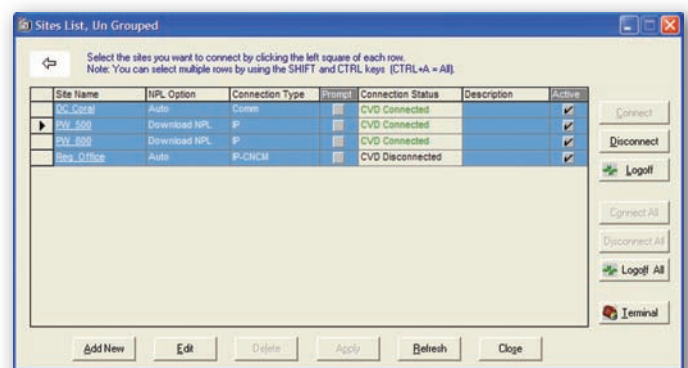

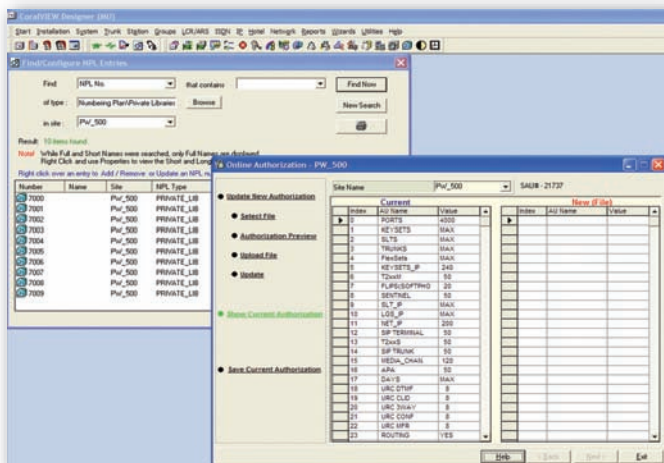

## INTELLIGENT AND INTERACTIVE

### FEATURES THAT SIMPLIFY AND EMPOWER

- Central Point of Administration
- Connect to and manage multiple sites simultaneously (single session)
- Create Admin Login Profiles with varied privileges to view or change for each administrator
- Password security
- Records and tracks all changes made by each administrator
- Wizards for adding a user, relocating a device, finding available dial numbers
- Familiar "Search", "Browse", and "Add New" function buttons
- Built-in reports
- Program a user's feature buttons and print DESI strips from single screen
- Ethernet Connectivity
- Context-Sensitive Help provides quick access without searching

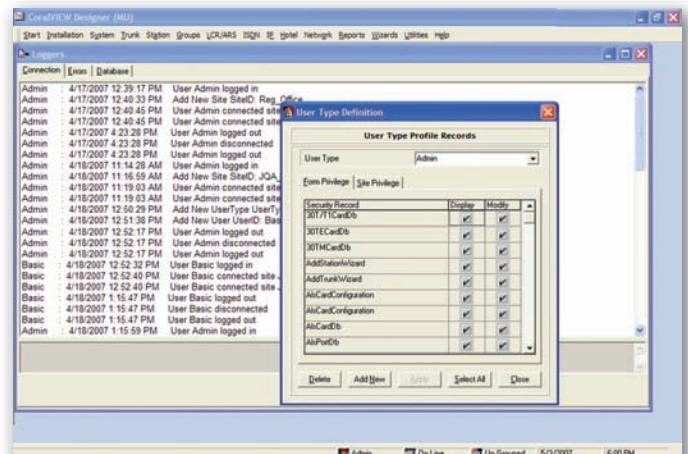

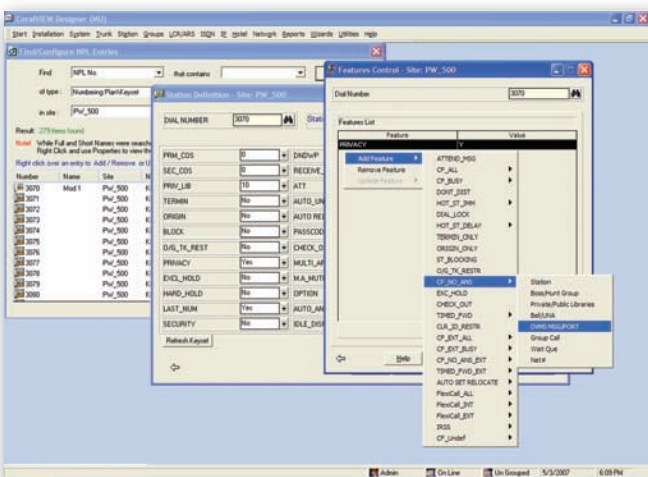

Coral IPx Office with T208 IP telephone

### SEAMLESS SYSTEM FEATURE UPDATES

Eliminate confusion about available licenses and features. System feature updates are now easily managed using the CoralView Designer's On-Line Authorization tool with no interruption of service.

### LINKED WINDOWS

Linked windows allow quick changes to settings.

### MULTI-SITE CONNECTING

Connect to multiple Coral IPx systems in a single session. Search across the network and "drill-down" to make changes on individual sites.

### PROFILES AND PRIVILEGES

Use Profiles and Privileges to create the appropriate log-in rights for each administrator. Log files track each change those administrators make.

## TADIRAN TELECOM - A WORLD OF COMMUNICATIONS FOR EVERYDAY BUSINESS

With its first business telephone systems introduced in the late 1960's, Tadiran now has distribution in 41 countries. Tadiran is known for its highly reliable and amazingly configurable systems, many still in service since the 1980's and, thanks to affordable upgrades, performing with the enhancements of today's telecommunication technologies. Tadiran is furthering its commitment to provide cost-effective systems that offer adaptability to future technologies and deep configurability to meet the needs of specific industries both large and small. Tadiran America Business Partners are qualified to sell, install and maintain Tadiran telephone systems.
