

The Tadiran Telecom Vision

Tadiran Telecom strives to connect people in all fields by developing advanced, effective, easy-to-use communication solutions that meet the challenging needs of today's world while looking ahead to future requirements and technological developments

For over 40 years, Tadiran Telecom has been among the world's leading developers of communication solutions. With the rapid growth in IP, Tadiran Telecom has maintained its position at the forefront of the field with a comprehensive range of converged systems, developing both software and hardware for businesses and organizations of all sizes.

Tadiran Telecom's award-winning products and best-in-class solutions cover the full spectrum of communication requirements, from comprehensive communication platforms and contact centers to applications, terminals and management tools. Tadiran Telecom aims to ensure smooth integration with third-party systems and endpoints as well as legacy systems and multimedia, while emphasizing flexibility, reliability and high security.

Staying abreast of changing needs

Research and development is at the core of Tadiran Telecom operations. By ensuring rapid product development, Tadiran Telecom meets changing market demands as they arise, while partnering with leading telecom companies for reduced time to market and broad market access.

Tadiran Telecom insists on the highest quality in all aspects of operations, from the finished products to customer service. This translates into dependable communication solutions that meet the most exacting standards, and a broad client base that appreciates the courtesy, rapid response and high level of expertise it receives from Tadiran Telecom.

Tadiran Telecom is a private company which has offices in New York, Tel Aviv, Moscow, and Beijing, New Delhi and Ukraine. In addition to the Tadiran America headquarters in Port Washington NY, Tadiran maintains Tadiran Government Systems in Alexandria VA. The company's global presence includes six major support centers, 35 local support centers, and hundreds of Business Partners and affiliates in more than 40 countries.

Upwards of 100,000 end-users sites (supporting over 10 million ports) including leading companies in a broad range of fields – from healthcare and education to finance and industry.

Creating a new world
of IP opportunities
